PROFILE

I am currently a pre-final year student pursuing Bachelor of Information Communication Technology (Hons) at Faculty of Technology, Rajarata University of Sri Lanka. I have been working in Full stack web development field for quite a while now. I have exposure in other fields like Software Engineering and Cloud Computing fields. I am quite enthusiastic about learning new and emerging technologies, and always looks for something new to try out. I mainly work with Full Stack Technologies. I have been able to complete a lot of diverse set of projects. I am a team player and always look for result oriented work.
